# IRONSIGHT FOR DRIVERS | START YOUR DAY

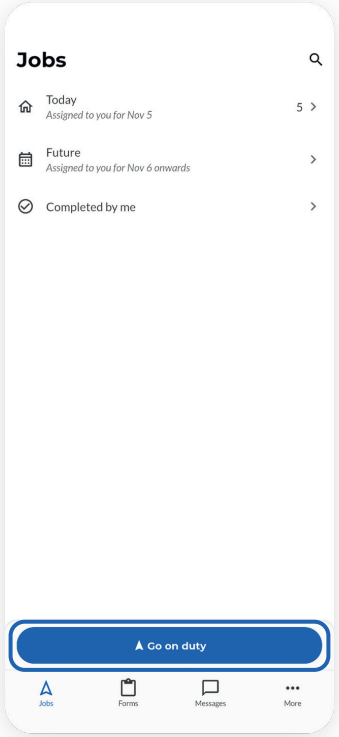

## 1 Log in

Log in where you have good service. You'll stay logged in after that.

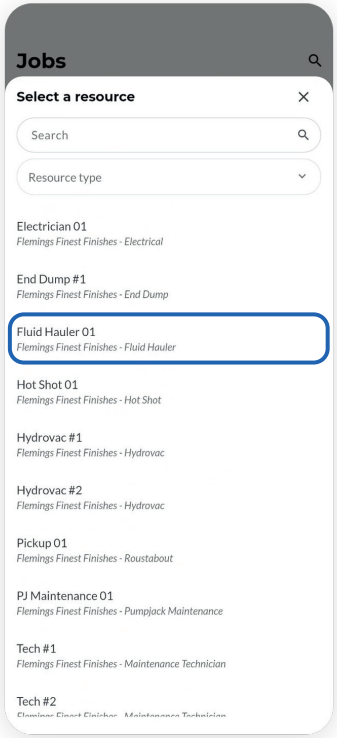

## 2 Go on duty

Tap Go on duty at the start of your shift. This starts GPS tracking.

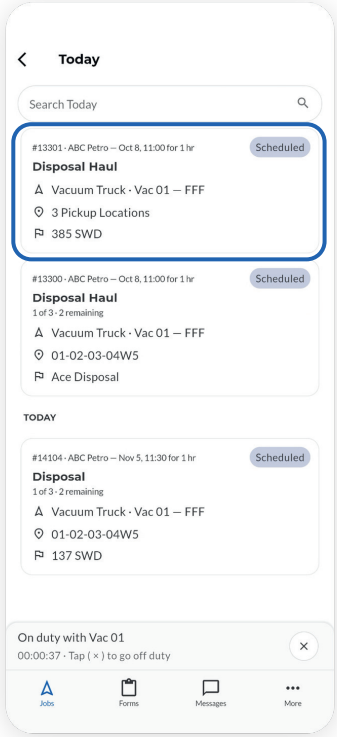

## 3 Choose resource

Pick your truck or unit. You'll see the jobs assigned to it.

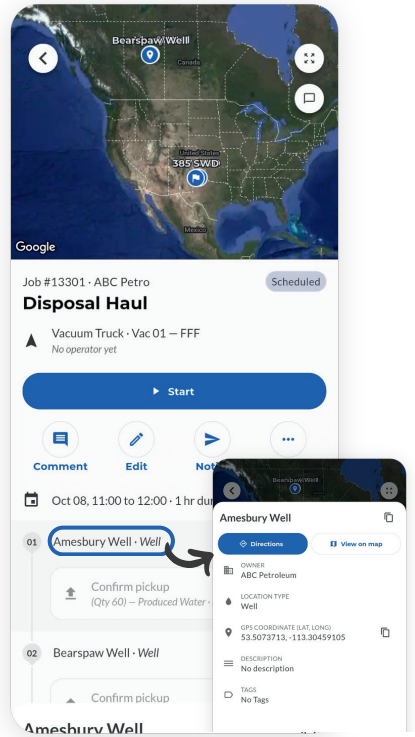

## 4 Open a job

Tap Today, then tap a job to open it. Future and completed jobs are listed too.

## 5 Review the job

You can review jobs before starting. Tap a locations name for directions and details

## BEFORE YOUR FIRST SHIFT

### 1. Get the app

Download IronSight from the App Store or Google Play.
Your company admin adds you first.

### 2. Set your password

Open your Welcome to IronSight email and tap Set My Password.
Check spam if you don't see it.

### 3. Allow permissions

Set Location to Always (iPhone) or Allow all the time (Android), with Precise location on. IronSight only tracks your location when you are On Duty.

# IRONSIGHT FOR DRIVERS | DOING A JOB

## 6 Tap Start

Tap Start when you begin the job.

## 7 Confirm stops

If the job asks, confirm each pickup and drop-off when you arrive, then tap Confirm.

## 8 Fill out forms

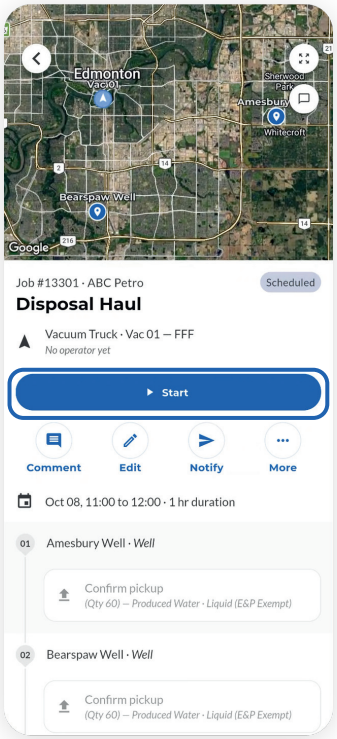

Fill out any required forms. Tap + Form to add one to the job.

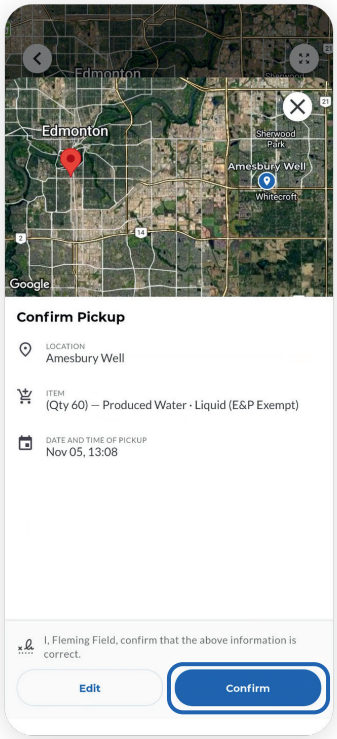

## 9 Complete the job

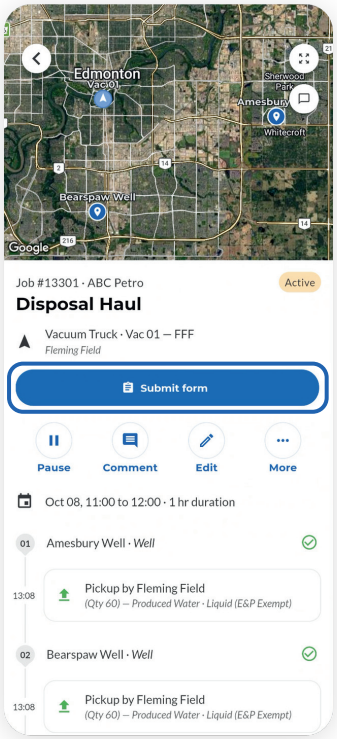

Slide to complete when the work is done, then add your line items.

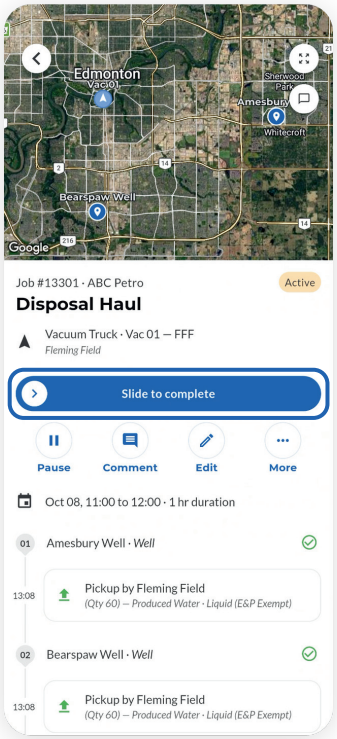

## 10 Go off duty

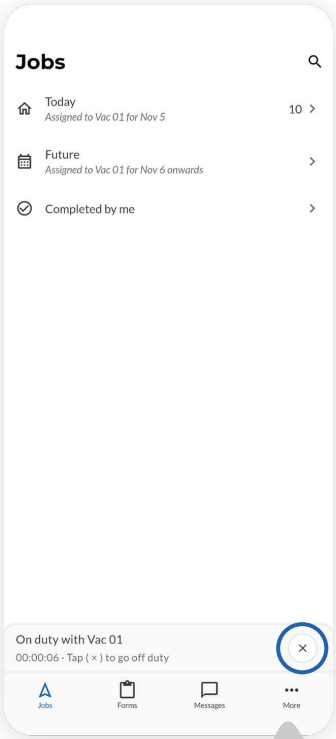

At the end of your shift, tap × on the on duty bar. This stops GPS tracking.

## GOOD TO KNOW

### No signal?

Keep working. Your updates sync when you're back in service.

### Keep the app running

Minimize the app instead of closing it, and keep your phone charged.

### Can't see your jobs?

Check that you're on duty with the right resource.

## NEED HELP?

Scan for the full Field Worker Guide.
Or tap More > Contact support team in the app.
